Example: **PERFORMAX**
hand grip with squeegee

SOTT-150-014 Handle

PERFORMAX Hand Grip

-130mm (5") wide

Sturdy cast iron hand grip for use in conjunction with special soft squeegees. (see 'Soft Squeegees' section)

The Performax offers tremendous grip and allows extra pressure to be exerted on the squeegee during wet applications. Ideal for use on large areas of wet application such as self adhesive film on to acrylate and composite sheet materials, but especially suitable for window films and thick security film applications.

The Allen screws for attaching the squeegee are counter-sunk so they cannot damage your work.

Suitable for use with
the following squeegees: **150-007, 150-012, 150-050**

Example: **FUSION-8** hand grip
with squeegee

SOTT-150-043

FUSION-8 Hand Grip

-200mm (8") wide; indestructible plastic

An exceptional hand grip, extra wide, manufactured from high quality, unbreakable plastic for use with special squeegees. FUSION hand grips offer an improved and extended grip reducing fatigue from squeegee work during those long applications. Extra comfort is provided by the anti-slip foam coating on the actual gripping area.

The curved form of this special smooth plastic hand grip prevents it from coming in to contact with film when extra pressure is applied, so any risk of damage to your work is eliminated. This is the ultimate hand grip for squeegees used for the wet application of film.

Perfect for use with thick and hard foils, such as security film and window film.

Also available in a narrower 13cm (5") version (**Fusion-5**).

Suitable for use with
the following squeegees: **150-051**

SOTT-150-051

damage**

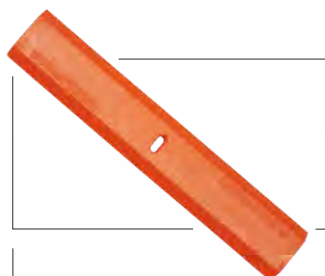

The
WIDE Gripper

The big brother of the Scraperite family. This 4" (10cm) wide scraper helps you tackle the toughest jobs by quickly removing adhesive residue, dirt, etc. from flat surfaces. The large polycarbonate scraper can be used on both sides and does not scratch surfaces. It's also easy to put in place and remove without fear of hurting yourself.

The Giant Gripper is entirely made of plastic, so it will never rust or oxidize. An indispensable tool for any signmaker, window tinter, painter or cleaner.

This new tougher material is more resistant to breakage and wear. Designed for use in industrial and trade applications where repeated heavy use is common. Polycarbonate scrapers for the Lil' Gripper 300-006 and 300-008.

For use on the following substrates:

Aluminium, Brass, Ceramic Tile, Chrome, Glass, Fiberglass, Granite, Marble, Mirror, Stainless Steel, Windows.

350-210

SOTT-350-210

SQUEEGEE SHARPENER (GRINDER)

- is your squeegee burred?
- is your squeegee no longer straight and smooth due to wear and tear?

A squeegee often is a personal favorite and an applicator will always carry it with him. But what can you do when this particular squeegee has worn out so much, it's round and full of burrs? Keep it! Our Squeegee Sharpener is the solution to your problem! This smart tool has a small knife in its groove, fully smoothening the squeegee when pulled through. Smart and simple!

SIGNWRITERS TOOLS

SOTT-300-010

Same type of squeegee as the 150-001, yet 24cm wide.

150-004

SOTT-150-004

SOFTLINE TURBO SQUEEGEE 9cm

Same type of squeegee as 150-001, 9 cm wide and specially shaped for squeezing in window frames and difficult corners.

150-030

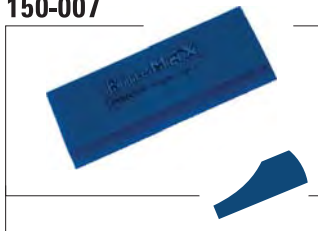

SOTT-150-030

DIAMOND TIP Yellow Squeegee

An essential tool for applying vinyl in hard to reach areas, because of the special design and sharp edges of this squeegee. Won't scratch glass.

SIGNWRITERS TOOLS

150-007

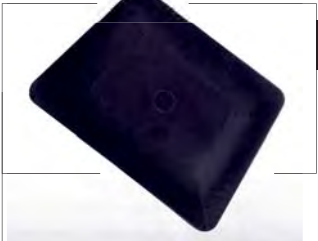

SOTT-150-007

THE BLUE MAX (shaped)

-soft but resilient

The Blue Max is the ultimate squeegee for wet applications, since no other squeegee can rival it for removing moisture under the film. Perfectly use for thick and stiff films, like safety films, solar windowfilms and laminated digital print films.

150-016

SOTT-150-016

Teflon Black -Flexi soft

-Flexi and soft

-Heat resistant

The BLACK "TEFLON" HARD CARD is second to the White hard card in popularity. This card provides a little more flexibility than the WHITE or the GOLD, but it is stiffer than the BLUE which makes it great for both flat and curved glass surfaces.

150-035

SOTT-150-035

5-WAY TOOL

Tough Plastic ruler for easily cutting window film in edges and corners. Because of the unique design it is possible to cut in different angles. Designed for applying vinyl and window films on flat glass.

SIGNWRITERS TOOLS

YELLOW-5

SOTT

THE YELLOW-5® CUTTING RULER

Anti-slip cutting ruler, indispensable for signmakers, window tint installers and interior film installers, that need to cut straight lines without the cutting ruler sliding all over the place.

A unique solid aluminium cutting ruler with all of the advantages that you could possibly wish for: strong, stable, straight, but above all safe. This allows you to make long cuts with ease, without the fear of the knife 'jumping' and running across your fingers. The workshop becomes safer and production is increased. Large sheets of film and thick, rigid materials can now be cut with ease.

The calibrations are clearly displayed in centimetres. This allows cuts to be made straight to size. The special anti-slip underside ensures perfect stability on every surface, be it glass,

The cutting ruler that CAN'T SLIP during cutting

Aluminium cutting ruler with raised edge to protect fingers

acrylate, card, linoleum, rubber or anything else for that matter; the ruler remains perfectly still during cutting. The ideal tool for large colour prints and the like. The anti-slip foam layer prevents the ruler from coming in to contact with your work preventing it from damage when the ruler is slid around. Very handy!

- ✓ Cuts self adhesive films
- ✓ Cuts polyester window films
- ✓ Cuts plastic panels and foam boards
- ✓ Make super straight lines

Available in 3 different lengths:

SOTT-250-CB100	100cm
SOTT-250-CB150	150cm

SOTT-500-020

SPEEDCLIP

-no more unsightly curled up pieces of tape

It's always been a problem: securing your rolls of film after use. Usually they are just taped up, but this often means that when the tape is removed the film gets damaged. Not anymore!

Flexible and self-closing

Can be used on thick rolls

300-023

Roll length: 36m (62 sheets)

SOTT-300-023

- removes all dust from any surface**
- leaves no residue**

Slightly adhesive wipe on a roll. Ideal for removing all dust from any surfaces to be worked on. Removes dust from prints before laminating. Removes dust from windows and bodywork prior to film application. Removes dust from metal surfaces before painting or spraying. The roll is 30cm (1'2") wide and each roll consists of individual sheets that can be pulled off as required. One side is slightly adhesive. Leaves no residue.

The HeavyDuty belt is not included. Please order this item separately.

SOTT-400-016S

SOTT Tool Bag

PROFESSIONAL TOOLBAG

-The most versatile toolbag available

Professional installers often find themselves doing acrobatic feats to get to their tools whilst working. SOTT wants to respond to the needs of installer. So SOTT designed a special ToolBag which fully meets the requirements of professional installers across Europe. Behold the outcome.

Available in 3 sizes:

APPLICATION GLOVES

SOTT-400-252

SOTT Application Glove - 2 Pieces M

SOTT-400-253

SOTT Application Glove - 2 Pieces L

SOTT-400-254

SOTT Application Glove - 2 Pieces XL

-seamless - perfect fit - stretch

Seamless application glove, made of elastic material. The white material helps you to check whether the surface and/or the vinyl is clean. Because of the perfect fit it gives you the necessary feeling that you need during your application work, especially when you deal with curved surfaces on cars.

The glove is made of dust free material, so even touching the adhesive of the vinyl will not cause any residue to be left behind.

SIGNWRITERS TOOLS

600-AA1400-100

100ml

Eliminate
RISKS
by improving
ADHESION

SOTT

Bonding primer for water based car lacquers

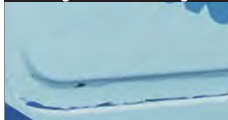

SOTT-150-088

ADHESIVE ACTIVATOR -100ml

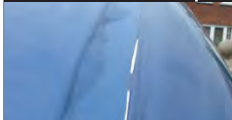

- neutralises surfaces containing silicone
- harmless to the substrate

Always a pain: film that releases out of recesses and channels. This could be for a number of reasons, but one of the main causes is the actual car paint.

Damaged film at the edges

Poor adhesion of full-colour prints

The risks
involved with water-based car lacquers:

Due to the silicone content in modern car lacquers the adhesion of film can be far from optimal. Film under tension (especially in recesses) is bound to come loose and ultimately be returned for repair or renewal.

600-GC101

SOTT

For large glass areas and windows in buildings

SOTT-600-GC101FLES

Industrial Glass Cleaner - 1 Liter Bottle

- for optimal cleaning and degreasing of glass to prepare it for the mounting of tinting film

500-050

SOTT-500-050

ROLL DISPENSER

- indispensable in every workshop

Metal dispenser for rolls of triple layer polishing paper (300-040). This handy dispenser holds a roll of polishing paper and allows individual sheets to be torn off across a black perforated guide at the top. The dispenser can be folded for easy transportation.

Suitable for:
Rolls of Triple layer polishing paper 300-040

300-040

SOTT-300-040

POLISHING PAPER TRIPLE LAYER 2 ROLLS

- 2 rolls -37cm (1'3") wide

Industrial grade triple layer highly absorbent polishing paper. This paper is extremely strong and will not disintegrate when saturated with water. Soft but strong. Indispensable in every workshop.

Useable for:
Roll dispenser 500-050

This high quality compactly rolled polishing paper is extremely soft and so will not scratch the substrate.

550-110

SOTT-550-110

THE SPRAYMASTER

- is not affected by chemicals, degreasers, cleaners, adhesive removers, acids or aggressive liquids!

You've never seen a sprayer like this! The Spray Master releases a powerful mist instead of just beads of moisture. With a range of **up to 3 metres!** The Spray Master has an enormous spread of spray and covers the entire surface with a 'cloud'. This mist is much finer than the beads of moisture normally associated with other sprayers. The turbulent spraying action not only ensures that the surface is more efficiently sprayed, but the resulting mist also 'pulls' any dust that happens to be swirling around out of the ambient air.

SIGNWRITERS TOOLS

600-T900

SOTT-600-T900

Siliconen/Wax Remover - 1000ml

Applying vinyl on a surface that is treated with auto wax like Meguiar's or other brands, can be a nuisance. The protective layer usually rejects the adhesive, which could result in less-than-pleasant phone calls from your customer. In this case use T-900. This strong silicone remover will dissolve the wax and degrease the surface for a perfect application job.

600-TRL1000

SOTT

SOTT-600-TRL1000CAN

Film Remover - 5 Liter Bottle

-Removes self adhesive film from car paintwork, Beauty Board, glass and metal

Suitable for use on car paintwork, Beauty Board, and metal. Works with cast, polymeric and monomeric film. Not suitable for use with reflective film and on soft substrates such as rigid foam, banners, awnings, acrylate, etc.

Read the instructions on the packaging carefully

600-TO

SOTT-600-TO

Tint-Off Windowfilm Remover - 1000ml

Removing film from car windows can pose quite a problem. Tint-Off has been developed especially for this purpose. Apply this soluble remover to the existing film, cover with a piece of old film or liner. After a few minutes, remove the piece of old film or liner and the old window film will be released with it.

Read the instructions on the packaging carefully

600-Z0415

SOTT

The one and only real adhesive remover is renewed!

RIGHT-OFF

SCOTCH MOUNT 4026
WHITE

12mm x 33m
Thickness 1,5mm

SCOTCH MOUNT 4026
WHITE

19mm x 33m
Thickness 1,5mm

General interior and exterior mounting applications where the tape will be protected from the environment

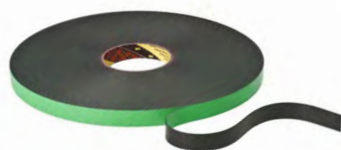

SCOTCH MOUNT 9508
WHITE

12mm x 66m
Thickness 0,8mm

SCOTCH MOUNT 9508
WHITE

19mm x 66m
Thickness 0,8mm

3M™ Double Coated Foam Tape 9508 is a white, 0.8mm thick, double coated closed-cell polyethylene foam tape with acrylic adhesive. The acrylic adhesive provides good initial tack and adhesion to a wide variety of surfaces.

SCOTCH MOUNT 9508 BF
BLACK

3,5mm x 66m
Thickness 0,8mm

SCOTCH MOUNT 9508 BF
BLACK

12mm x 66m
Thickness 0,8mm

Black, 0.8 mm thick, closed-cell double coated polyethylene foam with acrylic adhesive

VHB 4941
GREY

12mm x 33m
Thickness 1,1mm

VHB 4941
GREY

19mm x 33m
Thickness 1,1mm

Our 3M™ VHB™ Tape consists of a durable acrylic adhesive with viscoelastic properties. This provides an extraordinarily strong double sided foam tape that adheres to a broad range of substrates, including aluminum, stainless steel, galvanized steel, composites, plastics, acrylic, polycarbonate, ABS and painted or sealed wood and concrete.

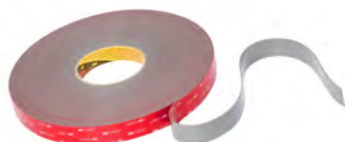

VHB 4611
GREY

12mm x 33m
Thickness 1,1mm

VHB 4611
GREY

19mm x 33m
Thickness 1,1mm

Dark gray, 0.045 in (1.1 mil), general purpose adhesive with firm foam has added feature of high temperature resistance. Can be used indoors or outdoors in a variety of applications, including window, door and sign assembly, electronics, construction and countless other industrial applications.

VHB GPH-060
GREY

12mm x 33m
Thickness 0.6mm

VHB GPH-110
GREY

12mm x 33m
Thickness 1,1mm

Our 3M™ VHB™ Tape consists of a durable acrylic adhesive with viscoelastic properties. This provides an extraordinarily strong double sided foam tape that adheres to a broad range of substrates, including aluminum, stainless steel, galvanized steel, composites, plastics, acrylic, polycarbonate, ABS and painted or sealed wood and concrete.

VHB 4614
CLEAR

6mm x 33m
Thickness 1,1mm

VHB 4614
CLEAR

9mm x 33m
Thickness 1,1mm

VHB 4614
CLEAR

12mm x 33m
Thickness 1,1mm

It is a clear, 0.8 mm thick, general purpose acrylic adhesive on both sides of a firm, foam core. It can replace rivets, welds and screws.

VHB 4915
CLEAR

6mm x 25m
Thickness 1,5mm

VHB 4918
CLEAR

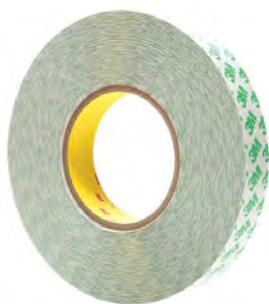

6mm x 16,5m
Thickness 2mm

VHB 4918
CLEAR

9mm x 16,5m
Thickness 1,5mm

Transparent, 1.5 mm, general purpose acrylic adhesive and firm acrylic foam core.

Strong and durable bonds to a wide variety of high to medium surface energy substrates like paints, metals and glass, acryl glass (PMMA), polycarbonate.

FILM TAPE 9087
CLEAR

12mm x 50m
Thickness 0,265mm

FILM TAPE 9087
CLEAR

25mm x 50m
Thickness 0,265mm

FILM TAPE 9087
CLEAR

50mm x 50m
Thickness 0,265mm

Acrylic adhesive bonds to many high and low surface energy substrates. Thick adhesive bonds to rough surfaces

FILM TAPE 020F
CLEAR

6mm x 50m
Thickness 0,265mm

FILM TAPE 020F
CLEAR

9mm x 50m
Thickness 0,265mm

Accurate safe cutting anywhere

Remove the safety risk of using a hand knife by adding the lightweight Simplex to your tool kit.

Ideal in the workshop or on-site, for use by the craftsman or fitter, the Simplex offers precision cutting accuracy in any environment.

It will tackle a wide variety of materials from PVC foamboard to floor coverings and its superior build quality and robust design makes it the perfect portable unit.

Materials cut

Semi-rigid materials

PVC foamboard 6mm

Corrugated/fluted plastic 10mm

Corrugated cardboard 10mm

Foam centred board 10mm

Rigid materials (scoring only)

Cast acrylic / Plexiglas 3mm, using SCO scoring blades

Flexible materials

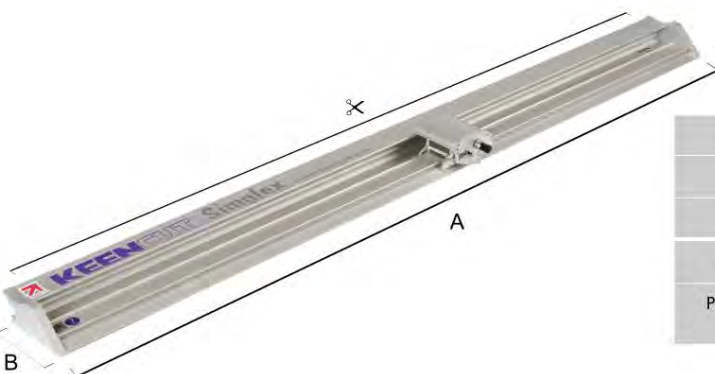

Banners

Magnetic sheet

Film

Self-adhesive vinyl

Textiles and delicate materials, with optional fabric cutter attachment
